

BROWN GREEN MINUTES FROM SATURDAY 1/9/2010

Present: Mukei, Tara, Diane, Lynda (Neli working could not attend)

Personal check-in

Review of tasks in progress:

1-re bicycle hitching proposal idea, use of existing studs to secure hooks (was suggested by Charles) A question: Would at least three bicycle spaces be available?

Question arose re fengshui of bikes in that location, rear exterior wall of shed. Diane and Lynda attend FS meetings & will bring it up.

2- re home-made laundry soap proposal: Diane and Lynda will conduct first experiment followed by B/G members and subsequent demo for interested ZCLA members

3- re candles: Cathedral Candles are 51% beeswax and company targets same organizations as us, so we will not pursue this further.

4-Mukei brought three documentary films for showing on open calendar nights or afternoons. "DIRT" Michael Pollan's "BOTANY OF DESIRE", Steven Lansing film. These showings might be monthly or bi monthly and accompanied by some additional small (fun) activity. Mukei to confer re calendar openings.

New Business:

1- Discussed installation of blinds in the coffee lounge

2- Tara brought tapes, CD's and DVD's from Bioneers' conferences of past years. These too were suggested as possible films offered from time to time at ZCLA or in apartments for small group viewings. The list of presenters is spectacular for lack of a better superlative!

3- Some very initial ideas were suggested for planning **EARTH DAY** in April, but if we grow vegetables again, we would begin planting in accordance w. estimated ripening time.

Reading:

Review of last chapter, Buddhist Solutions for the 21st Century.

Next chapter in Dharma Rain for next meeting, page 179.

Date of meeting now to be determined via email

Respectfully submitted, L.G.
